ABOUT

About the Artist

I have loved art all my life. After a long but fruitful career in the technology, I decided I wanted to dedicate art more time.

I has been much influenced by a group of modern artists. My current body of work includes figurative semi-abstracts inspired by life, and simple realistic works of the world around me. I love my life!

- El límite de el Arte, es solamente nuestra imaginación.
- Ningún gran artista ve las cosas como son en realidad; si lo hiciera, dejaría de ser artista.
- El arte es la oportunidad de iluminar tus ideas y tambien es la oportunidad de inspirar a alguien.

¿Qué es el arte?

Es todo aquello que hace que valga la pena la vida.

Si piensas que la cultura es cara prueba con la ignoracia.
